# SUMMARY

“

**“Devinci Higher Education is a highly reputed private institution of higher education located in Paris which is made up of three schools that award high-quality, accredited degrees: EMLV (Business School), ESILV (Graduate School of Engineering) and IIM (School of Web Design and Multimedia). The unique range of subjects taught on this campus creates a stimulating interdisciplinary and intercultural atmosphere.**

Located in the main European business district, our schools are close to major national and international companies. They collaborate practically with the corporate world in order to provide employers worldwide with highly skilled and culturally adaptable graduates. High-level research and original teaching methods based on hybrid courses, project-based learning and flipped classrooms develop a large set of hard and soft skills. Students work in up-to-date facilities and benefit from collaborative and creative amenities such as the Learning Center, the FabLab for technical innovation, or the interdisciplinary Incubator for instance. Thanks to these resources more than 8,000 students constantly work together to successfully complete their studies while actively participating in student life and preparing for their professional careers.”

## OUR CAMPUSES

# ABOUT US

De Vinci Higher Education was set up in 1995. At its conception, it aimed at completely innovating French higher education. The goal was to assure socially inclusive access to public universities all while guaranteeing professional entrance to the best "Grandes Ecoles" (France's unique third level schools).

Since its creation, De Vinci Higher Education has continually striven for excellence in education and aims at exposing its young professionals to cultural diversity in an increasingly globalized world. De Vinci Higher Education encourages interdisciplinary collaboration between departments and is based around the values of multiculturalism, innovation, and good sportsmanship.

# WHY CHOOSE EMLV?

By joining one of our programmes, students will take part in a unique experience, preparing them to become global managers ready to innovate and manage complex challenges.

## WE OFFER:

- . A unique transversal approach
- . An emphasis on soft skills
- . Discover how to stand out in a changing world
- . One of the best places in the world to study!

“The presence of a business school (EMLV), an engineering school (ESILV) and a digital school (IIM) on campus offers students the opportunity to learn and grow through peer learning. This means that, in addition to the teaching and modules offered in the other schools at De Vinci Higher Education (coding module, Fab Lab workshops, courses on climate transition...), De Vinci students also acquire skills complementary to those taught at prestigious management schools and are fully prepared to enter the world of business. This close working relationship of the three schools at De Vinci Higher Education forms the foundation of an original educational programme that is acclaimed by De Vinci’s partners, who recognise its value in preparing open-minded young professionals who are better able to work in changing, multidisciplinary and intercultural environments. International experiences play an important role at De Vinci Higher Education, with more than 20% of international students on campus every year our students will be immersed in a truly international environment. And no university experience would be complete without our 58 student associations that round out life on campus, providing opportunities for students to invest themselves in humanitarian, cultural, sporting or artistic projects and to develop skills and behaviours that are highly appreciated by recruiters.”

Sébastien Tran  
EMLV Dean

“During my year of studies at EMLV, I worked with a lot of creatives and professionals, whether [they were] professors or colleagues and peers, so I learned a lot from them because they came from different backgrounds.”

Nathalie Laham  
MBA, class of 2022

“We have half-year of academics and half-year of an internship. When we only have a half-year of academics, [this] is usually teaching you practical stuff to use in your internship, and that’s when I realized that I need to choose EMLV.”

Daniel  
MSc International Business, class of 2020

## ACCREDITATIONS AND NETWORKS

EMLV benefits from French and international accreditations and recognitions such as AACSB, EFMD, AMBA, Conférence des Grandes Écoles (CGE), CEFDG, CDEFM, Bienvenue en France, BSIS, The UN Global Compact, PRME, Campus France, PEPITE, Concours SESAME, UGEI.

**FURTHER INFORMATION**

“Welcome to ESILV, the De Vinci Higher Education Engineering School situated in the heart of Paris La Défense. ESILV offers high-level general engineering courses with a strong digital focus. The programmes incorporate a global outlook and proven project-based learning. Its reputation amongst employers speaks for itself. The school is located in the heart of Paris’s La Défense business district, and ESILV graduates excel in an array of sectors with their multidisciplinary, scientific and managerial digital skills, their thirst for innovation and their strong ethics. Studying at ESILV means taking control of your own learning while surrounded by businesses which take an active role in the school's teaching. The course provides countless opportunities to develop and broaden the scope of your learning: technical projects, majors, tracks, time abroad, double degrees, internships, and more. The school and its international network and network of corporate partners are here to help each student with each of their choices and the key moments of their engineering degree. ESILV and the two other De Vinci Higher Education schools - the EMLV business school and the IIM digital school - share a set of common values.”

**Pascal Pinot**  
ESILV Dean

# WHY CHOOSE ESILV?

## OUR MISSION:

- . To train engineers having scientific and technical strong bases
- . To offer a real professional experience (14 months in work placement)
- . To prepare students to the issues of the professional life
- . To encourage the international opening and careers abroad
- . To develop project-based teaching method
- . To train future managers
- . To arouse the innovation and research
- . To deploy the sides of an active and united personality through the experience of associative life, sports, support actions in secondary schools in difficulty, the mutual aid between students...

“In the Fintech program I am lucky to have very interesting professors who are also active in the blockchain ecosystem.”

**Nasreddine Grihma**  
Fintech, class of 2023

“After having followed a lot of the professional conferences and attended the many different forums that ESILV offered and continues to offer, market finance piqued my interest. I opted for the computational Financial program and I don’t regret it at all.”

**Raïna Komchie**  
Computational Finance, class of 2023

## ACCREDITATIONS AND NETWORKS

ESILV benefits from French and international accreditations and recognitions such as EUR-ACE, CTI, Conférence des grandes écoles (CGE), Bienvenue en France, Campus France, Concours Avenir, e3a-Polytech, SecNumedu, CDEFI, PEPITE, UGEI, PRME, Campus Cyber.

# WHY CHOOSE IIM?

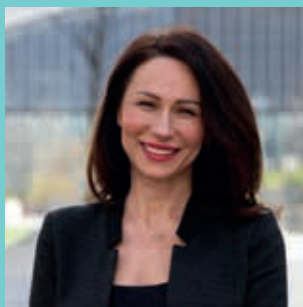

Here are 10 good reasons that make IIM stand out from other universities:

- . It is France's first digital school, founded in 1995
- . 7 state-recognized qualifications
- . A range of courses enabling students to choose their specialization step by step, with a first-year Bachelor's degree, 5 business areas and 17 Master's degrees
- . Professional training programs combining technical, creative and managerial skills
- . Numerous work-study programs
- . Projects carried out in conjunction with companies throughout the curriculum
- . A unique cross-disciplinary approach between 3 schools (IIM, EMLV and ESILV)
- . More than 60 clubs and associations on campus
- . Sport for all integrated into the curriculum
- . An American-style campus with all the necessary facilities and services

"IIM was founded at the dawn of the internet era in 1995 as the first school created specifically to train digital professionals. With over 2,100 students, IIM is, more than ever before, at the centre of the digital revolution. From Cloud technology and data, to virtual reality, artificial intelligence, the Metaverse, and more... Digital technology is everywhere and new jobs are emerging every day. These relationships with the experts behind these transformations give our students opportunities to work on real projects for companies. Our students complete over a hundred projects every year, ranging from graphic design to coding, video games, e-business, digital communication, and 3D animation. When you choose IIM, you know that you will be ready for the careers of the future!"

**Lidija Nikolic**  
IIM Dean

"On campus, there are a huge number of associations: sports, art, events, digital... so we can meet a lot of students from many different backgrounds, both our counterparts from the IIM and students from the two other schools in the De Vinci Higher Education, ESILV and EMLV. These encounters allow us to learn from each other and to cooperate with people of different specialities, just as in the world of work."

**Assia Adekambi**  
Bachelor Création & Design, class of 2026

"Ever since I was a little boy, I've had a passion for video games. Playing games got me interested in how video games work, and that's how I came to want to make a career out of it. I chose the IIM, attracted by its rich community life."

**William Ferreira**  
Bachelor Jeux Vidéo, class of 2026

## ACCREDITATIONS AND LABELS

IIM is a member of leading professional associations in the digital sector. These associations and professional networks cover all of the IIM's business areas and ensure that the school, its courses and its graduates are visible on the job market. These include : Cap digital, Réseau des Écoles SNJV, IAB France, Capital Games, Designers interactifs, Talents du Numérique, RECA, Le club des DA, Cumulus Association.

**FURTHER INFORMATION**

Founded in 2002, De Vinci Executive Education, formerly Institut Léonard de Vinci (ILV), is part of the De Vinci Higher Education Group, along with EMLV (École de Management Léonard de Vinci), ESILV (École Supérieure d'Ingénieurs Léonard de Vinci) and IIM Digital School. It represents the Executive activity of De Vinci Higher Education, and its initial vocation is to develop specialised MBAs and executive training courses aimed at managers undergoing retraining, professionals wishing to develop their careers, and students who already hold a higher education qualification and wish to specialize. Keeping pace with changes in technologies and practices, and working closely with professionals and companies, De Vinci Executive Education offers an optimal environment, experienced professionals and the desire to pass on know-how, to promote the employability of students and professional learners in the service of tomorrow's talent and companies.

# WHY CHOOSE DE VINCI EXECUTIVE EDUCATION?

- . Tailor-made programmes, short courses and more than 15 MBAs specialising in a number of fields, including energy transition, management, health and digital.
- . A teaching approach that is in line with the expectations of the business world.
- . A teaching staff that is essentially made up of professionals who are recognised experts in their field.
- . Programmes in line with the needs of the market and the expectations of tomorrow's recruiters.
- . De Vinci Executive Education has a range of tailor-made professional training courses that meet the needs of companies for their employees. We provide learners with an effective network of partner companies, which in turn helps them to realise their career plans.

"I chose De Vinci Executive Education because, at the age of 40, I wanted to take up the challenge of changing business sector while broadening my range of useful knowledge in project management: Audit & Management Control. What's more, the MBA is ranked 3<sup>rd</sup> in the Eduniversal 2023 Best Masters in Audit and Management Control!"

**Mariam Da Silva**  
MBA Audit et Contrôle de Gestion

"The strong point of this course is its cross-disciplinary approach, which alternates theory linked to Artificial Intelligence, with courses on Deep Learning, for example [...] with more practically-oriented courses involving case studies."

**Ines Habri**  
MBA Management de l'Intelligence Artificielle

- . Middle East & Africa : 5%
- . Oceania : 4%

### INTERNATIONAL DUAL DEGREES

- . 15 DD in Business (EMLV)
- . More than 40 DD in Engineering (ESILV)
- . 3 DD in Digital Technologies (IIM)

# PREPARING YOUR ARRIVAL IN FRANCE

**We also know that preparing your arrival in France is more than just choosing some courses and buying a plane ticket. A question about your visa? Need some advice on an accommodation? Looking into signing up for the Social Security? Want to open a bank account? Our Welcome Desk is here to help you!**

## BIENVENUE EN FRANCE!

The Welcome Desk is here to welcome you in our campuses and make your arrival a smooth transition! We are available to you on all the administrative procedures: before your arrival, to make sure that you have all the keys to travel to France; during your arrival, to make sure that you get more hands-on information for the procedures that you need to priorities; and once you are settled, to make sure you can focus on your studies with a strong support system.

Our office also organises the Orientation Days at the beginning of your journey with our schools to help you get to know the campus, your peers and the staff before your programs start. During those days you will be invited to administrative workshops, informative conferences, and fun activities organized by our partner student association Erasmus Student Network (ESN).

We are also working closely with our Student Life department to integrate as many student associations as we can during those events, so you can meet French students that wish to welcome you all.

In 2019, President Macron launched a global national strategy to attract international students in France, and we, at Devinci Higher Education, chose to fully commit to this initiative. As such we applied for the Bienvenue en France accreditation delivered by Campus France rating how well we can accompany our international students. And in 2020 we had the honor of receiving two out of three stars on the accreditation for our management and engineering schools for four years.

**We are available via our email at [incoming@devinci.fr](mailto:incoming@devinci.fr)**

We can't wait to welcome you at De Vinci Higher Education !

# BUDGET AND ACCOMMODATION OPTIONS

## WHERE SHOULD I LIVE DURING MY STUDIES?

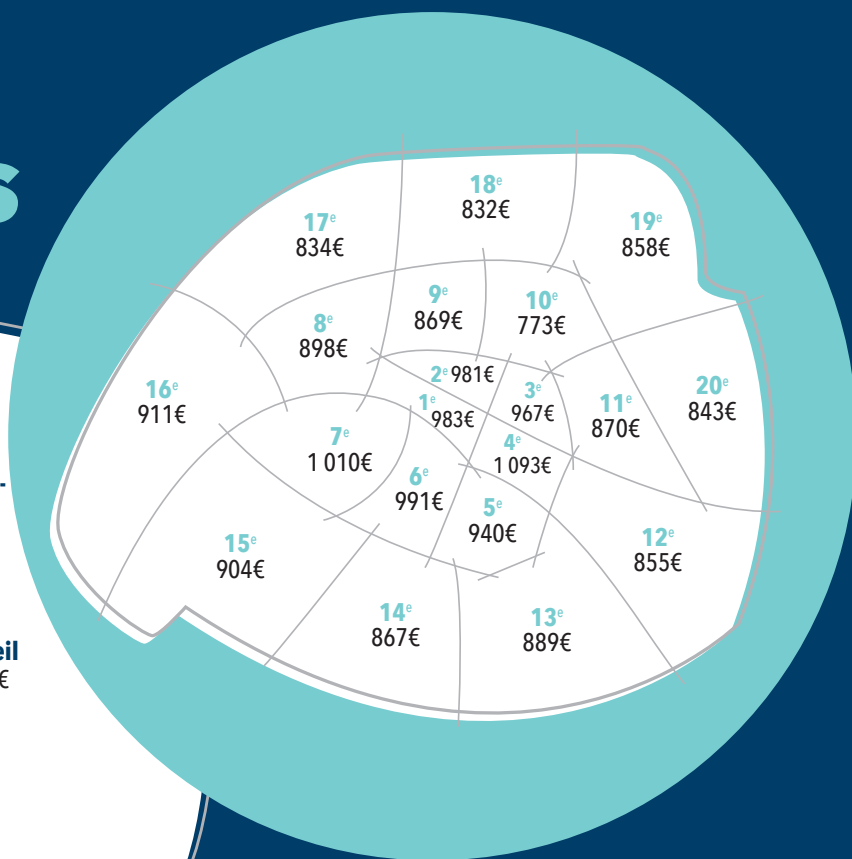

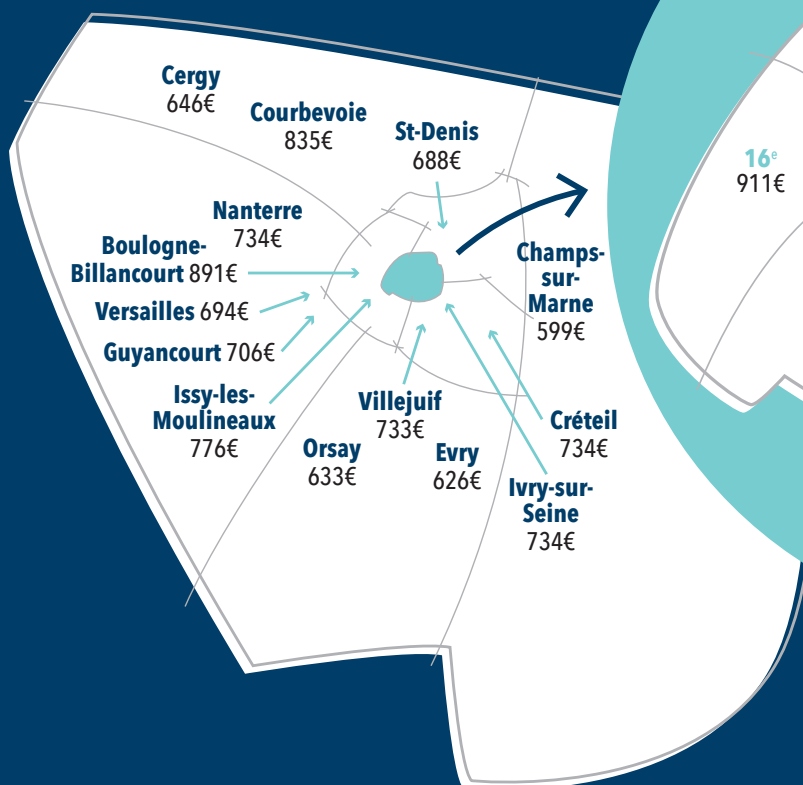

You might have heard of the multiple arrondissements of Paris, but there are many more options to find an accommodation that fits your needs! Whether you look to rent a room in a shared apartment or your own studio, here are some options for you to consider calling your home during your studies.

- . Paris centre : 800 > 1 000 €
- . Nanterre : 650 > 850 €
- . Courbevoie 750 > 950 €
- . Puteaux 700 > 900 €
- . Colombes 600 > 800 €

## OTHER THINGS TO CONSIDER IN YOUR MONTHLY BUDGET

- . Transportation : 40 > 80 €
- . Groceries: 150 > 200 €
- . Hobbies & Leisure: 200 €

## PARIS
